

Federal Communications Commission, we have prayerfully sought our representatives through petition to redress grievances in which CONGRESS both Houses continues to overstep limited powers preventing Executive Branch enforcement of consumer protection laws by allowing 'trade name' of national associations and federal associations CREDIT FACILITY and Clearing House Facilities to affix OCC's vistorial powers over all internet commercial business transactions. FCC Commissioners we are humbly seeking prayerful remedies through enforcement of federal, state laws, regulations and Uniform Commercial Codes, laws already in place meant to protect consumers from frauds in which real estate property taken by alleged unlawful business acts through falsification of documents, delay in processing documents, and intentionally filing falsified documents with public offices and county clerks and county recorders and robo-signatories exist and processed this very day in all of the Courts of Equity of this great nation each forced to ignore fraudulent documents filed by general purpose business entities, individual agent and individual attorney who do business intrastate and interstate paid to file transactions over internet and the bank attorney as an individual and the settlement agent as an individual vested fiduciary duty and due diligence paid to allow TRUSTEE's to take funding and to take real estate with clouded titles.

Without participations of bank attorneys and title and settlement agents who process ESCROWS and advance funding and PRE-FUNDING of the original transactions none of the harm to the economy possible. All transactions processed via integrated virtual network over the CLOUD, MEMBERS ONLY paid engaging in commerce, the business of trading real estate deceptively taking possession of real estate in a larcenous manner with intent.

TRUSTEE benefactor of Lenders Policies who pre-insuring 'collateral' going into Issuing Entity' c/o Registrant's pass through agency in which the promissory notes titles clouded trading virtually the legal documents.

'Temporary Lenders' c/o Mortgage Brokers input borrower information into a nationwide network in which 'real estate' deeds of title are traded in alleged unlawful manner in which 'general purpose business entities' do virtual business via Uniform Commercial Code (UCC) Financial Statements intrastate and interstate utilizing the 'internet' CLOUD and MEMBERSHIP of integrated provider connecting bank attorneys.

Please stop these violations immediately which harm this great nation.

FCC (Federal Communications Commission) Where are you. Alike Waldo we don't see you in the puzzle pieces as the regulator protecting consumers from frauds which harm welfare of this great nation. FCC you are vested powers by CONGRESS to protect welfare of nation and OCC does not have vistorial powers over FCC, so where are you the evidence in general purpose business entities not affixed national association and federal association, conjoined by Martin Act with Attorney General in New York, a home run!

FCC where are you regarding eFalsified documents purchased (COMMERCE) via nationwide integrated network ?As documented by FBI trained expert witness? Why do you turn your back FCC? US Constitution all power regarding COMMERCE vested to CONGRESS both Houses. Congress prevents enforcement of laws both federal and state vesting vistorial powers to MOUTH of Federal Reserve â€™OCCâ€™™. Martin Act, and Attorney General of New York.

Mortgage Assignments to Washington Mutual Trusts Are Fraudulent Posted on August 7, 2011 by Neil Garfield
